By Captain MESNARD, *from London, and the Captains* DEAN *and* COOPER, *from Liverpool, we have the following Advices, viz.*

CONSTANTINOPLE, *December* 17.

THE advices received here from Bucharest, touching the negotiations of peace, do not publicly tranſpire. We are only informed, that the Reis Effendi and M. d'Obreſcow, between whom there appears to be a good underſtanding, continue to ſee each other regularly every day, and confer together. The Porte is, however, exactly informed of all that paſſes, and on the arrival of the couriers here with diſpatches, conferences are immediately held at the Mufti's houſe, but the ſubject of them is kept a moſt profound ſecret. The Grand Viſir's army is gone into Winter quarters.

Genoa, Jan. 9. Laſt Thurſday Signor Ferdinando Spinola was elected Doge of this Republic by a great majority; but on account of his great age, and bad ſtate of health, he declined that honour, and next Monday is appointed for a new election.

From the Viſtula, Jan. 15. Mr. Richard, who went to Dantzick to ſettle with the Magiſtrates concerning the port duties there, is gone from thence without ſucceeding in his commiſſion; but, it is aſſured, that two other Gentlemen will be ſent thither upon the ſame buſineſs.

Frontiers of Poland, Jan. 16. The number of Poliſh Lords which return to their country, under the preſent circumſtances, are very few; many chuſing rather to abandon their fortunes, than be reſtored to the poſſeſſion of them, by a ſubmiſſion which they are averſe to. The oath which the Ruſſians require the inhabitants of this country to take, is as follows:

"I do ſwear to Almighty God, upon the Holy Evangeliſts, and I promiſe by the preſent oath an inviolable fidelity, and perfect obedience, to her Imperial Majeſty, the Empreſs Catherine Alexiowna, Autocratrix of all the Ruſſias, and to her beloved ſon, the Grand Duke, Paul Petrowitz, preſumptive heir of all the Ruſſias. I promiſe to be always ready to ſacrifice my life, and to ſhed the laſt drop of my blood for their ſervice. I kiſs the Holy Scriptures, and the Croſs of my Saviour, to render my oath ſacred and inviolable."

The Magiſtrates of Leopol have taken the oath of fidelity to the Empreſs Queen. The Auſtrians are actually in poſſeſſion of the whole Palatinate of Lublin, except the town of that name.

Warſaw, Jan. 13. The Miniſters from the Courts of Vienna, Peterſbourg and Berlin, have drawn up a very intereſting plan, which they propoſe to deliver to the Senatus Conſilium, which is to meet the 8th of February next. Some of the principal articles of it are as follow:

Firſt, His Majeſty, the Emperor of the Romans, and his Majeſty, the King of Pruſſia, having amply demonſtrated their reſpective rights to the provinces of Poland, which have been ſo long occupied by the Republic, and having informed all the Powers of Europe thereof, ſeveral of whom have acknowledged the validity of their pretenſions: And, in like manner, her Imperial Majeſty, the Empreſs of Ruſſia, having united with theſe Powers, to ſet forth her pretenſions to part of Red Ruſſia, as well as to part of the Ukraine and Lithuania, on account of the great expence of the Ruſſian troops, in the reigns of Auguſtus II. and Auguſtus III. and alſo under the preſent reign of King Staniſlaus Auguſtus, which troops were called into Poland by the Republic itſelf: In conſequence thereof, the States of the kingdom will declare in the enſuing Diet, in the preſence of their King, that the right of the ſaid Powers, and their taking poſſeſſion, is founded in juſtice.

Secondly, After the pretenſions of the three Powers ſhall have been previouſly approved of in the Diet, the frontiers of the kingdom of Poland ſhall be likewiſe regulated and confirmed for ever by the States of the kingdom.

Thirdly, In order to make this convention or agreement relative to the frontiers the better known to the inhabitants of Poland, a map ſhall be taken of that country, in which the frontiers of the kingdom of Poland ſhall be very exactly delineated, and the States in Diet ſhall acknowledge and confirm them for ever.

Fourthly, In order that theſe arrangements may be durable, the ſaid Powers will make treaties relative thereto, with the other Powers of Europe.

Fifthly, As it is well known that the preceding conſtitution of Poland occaſioned great prejudice to the Kingdom itſelf; that the power of their Kings was limited, and very much diminiſhed; and that diſorders had even been occaſioned thereby in the neighbouring countries; it is propoſed to make ſome conſiderable alterations in the conſtitution, the neceſſity and the legality of which is acknowledged by the States of Poland.

Ratiſbon, Jan. 17. It is reported here, that the negotiations of peace, which were reſumed at Bucharest between the Ruſſian and Turkiſh Miniſters, are again broke off.

The Grand Vizir has written a letter with his own hand to one of the principal Poliſh Noblemen in the confederacy, dated the 2d of Nov. 1772, ſetting forth, that the Sublime Porte being firmly reſolved never to depart from its engagements with the illuſtrious Poliſh Nation, its dear neighbour, nor to give peace to thoſe with whom it is at war, unleſs Poland is healed of her wounds, and peace reſtored in that unfortunate republic: Prayers are ordered in all the moſques of that country for the ſucceſs of thoſe illuſtrious Polanders; and deſires him to impart theſe ſentiments of the Sultan his Maſter, to all his countrymen wherever diſperſed throughout Europe, &c.

Warſaw, Jan. 20. *The 17th of this month, being the birth day of our Sovereign, who entered into the 42d year of his age, the Court was in gala; but his Majeſty did not appear in public, nor did he receive the uſual compliments from the foreign Miniſters on the occaſion.*

It is reported, that the Ruſſians are preparing to leave Lublin and Cracow, and that the Auſtrians are to ſupply their place. The Biſhop of Cujavia has ſent an eſtaſette here, with accounts, that the Pruſſian troops are arrived at Petrikau.

From Poland, Jan. 31. *It is aſſerted, that, at the interceſſion of the maritime Powers, the Court of Berlin has agreed to ſoften its conduct with reſpect to the trade of the City of Dantzick; and that the commerce between that City and Poland ſhall be on the ſame footing as that of Konigſberg with Lithuania.*

Vienna, Jan. 15. *The meaſures taken by Government to alleviate the misfortunes occaſioned by the dearth in Bohemia, have proved ineffectual, and the depopulation in that country in conſequence is every day greater. The quantity of corn, rice, &c. ſent there has been of little uſe, as other cauſes have concurred to occaſion a ſcarcity. An unhappy experience of two years has now convinced the Court of Vienna, of the neceſſity of taking meaſures entirely to ſuppreſs the third of the ſtatute work, which the Peaſants are forced to do for their Lords; and Prince Furſtenburgh, Caſtellan of that Province, but lately returned to Prague, to notify to the States the above reſolution. This will be very diſagreeable to the Lords, but the Government ſeems determined to make this uſeful arrangement for the good of the people.*

Turin, Feb. 22. On Wedneſday evening, the 17th inſtant, about ſix o'clock, his Sardinian Majeſty was taken ill, and at two the next morning he loſt his ſpeech, and apparently all kind of ſenſation, not taking any nouriſhment from that time, or ſhewing any other ſign of life, than barely continuing to breathe, till near one o'clock this morning, when he expired, as ſincerely lamented by all his ſubjects, as he had conſtantly lived beloved and reſpected by them, during a reign of upwards of forty years.

His preſent Majeſty, and all the Royal Family, are in the deepeſt affliction on this mournful event, and purpoſe to remove from hence to-morrow to the Veneria for ſome days.

Dantzick, Feb. 16. His Pruſſian Majeſty has, for a ſmall time, relaxed the ſeverity of the taxes which he at firſt required of this once free city. But, notwithſtanding, the number of military which he has thrown into it, and the preparations he is making, plainly evince that he looks upon it in the light of a conquered place. By his orders the three ports of the city are to be each of them fortified viz. Voorſtat, Alſtat, and Rechſtat. Ships of war are likewiſe building in the docks. He has alſo deprived this city of the right of coining their own money, has diſbanded the city garriſon, and obliges the inhabitants to maintain a Pruſſian one.

Copenhagen, Feb. 16. Vice Admiral Hoogland is to have the command of the fleet that is equipping here. It is to conſiſt of twelve ſhips of the line, and ſix frigates. Each man of war is to take on board 100 ſoldiers, and the frigates 50 each.

Warſaw, Feb. 17. The Senatus Conſilium cloſed its ſittings laſt Monday, with the uſual formalities; but though the reſult of its deliberations is not yet publiſhed, we know, however, that it was reſolved, 1ſt. To fix the opening of the approaching Diet to the 19th of April. 2d. To anſwer the declarations delivered to the Miniſtry by the Miniſters of the partitioning powers. 3d. To write to the powers who guarantied the peace of Oliva and Welau, to demand their good offices and mediation at the approaching Diet. 4th. To demand of the Empreſs of Ruſſia, the releaſe of the Confederate priſoners. 5th. To proceed to the trials of the criminals, who attempted the King's life; and to order the Referendary of the Crown to ſummon thoſe who have dared to publiſh the interregnum.

The Biſhop of Cracow, long a captive in Ruſſia, is returned hither.

The Biſhop of Kaminiec did not aſſiſt at the Senatus Conſilium, under pretence, that as part of his dioceſe was actually under Auſtrian domination, he was conſequently a ſubject of their Imperial and Royal Majeſties.

A courier ſet out for Peterſburgh this day, with the reſult of the Senatus Coſilium, and a detail of all that was done here.

L O N D O N.

Feb. 2. The following is his Majeſty's anſwer to the congratulatory addreſs of the Houſe of Commons on the birth of the Prince:

"His Majeſty returns thanks to this Houſe, for this inſtance of their affectionate attachment to him and his family."

A ſhip, name unknown, from Virginia to Liverpool, is put into Dolgelhew, in North Wales, in diſtreſs.

Feb. 4. They write from Madrid, that the Court has given orders for a conſiderable body of troops to be embarked immediately at Cadiz for the Havanna.

We are aſſured that there never was any real foundation for the report, of a deſign to form an union between Great-Britain and Ireland.

Extract of a Letter from the Hague, January 26.

"The laſt letters from Copenhagen adviſe, that all the Sailors lately raiſed in Denmark have received orders to be in readineſs to go on board the 12 ſhips of the line and ſix frigates, which are to be fit for ſea towards the end of the preſent month. It is pretended, but with what foundation we know not, that the ſhips abovementioned are intended to join a French ſquadron in the Mediterranean to execute ſome ſecret expedition."

Extract of a Letter from Stockholm, January 25.

"Every appearance here confirms us in the opinion, that a war with Denmark is inevitable, and that it will commence very early in the enſuing Summer. It is thought likewiſe that it will in ſome meaſure be carried on at ſea, as every attention is now paying to render our marine very formidable. The Duke of Aſtrogotha is to be appointed High Admiral of the fleet, and his Swediſh Majeſty intends taking the ſupreme command of the army upon himſelf. A ſecret treaty is now going forward here with the Court of Peterſburgh, by which it is ſaid the Swedes are to be ſupplied with a large body of men to ſecond them in their operations."

Feb. 6. The *Commons* agreed to the report of Wedneſday's reſolutions on the ſupply, viz. that 6336 l. be granted for the civil eſtabliſhment of Senegambia.

1885 l. for defraying the expences of general ſurveys in North-America for 1773.

17,274 l. for the ſupport of Weſt Florida, and 4950 l. for Eaſt Florida.

30861. for the ſupport of the civil eſtabliſhment of Georgia; and 5146 l. for Nova Scotia.

Extract of a Letter from Warſaw, January 26.

"Yeſterday the Imperial, Ruſſian and Pruſſian troops, who were quartered in the contiguous cantonments of this city, were marched into the ſuburbs and environs, where many of them were quartered, and the remainder in the city itſelf. The reaſons of this ſtep is not publicly known; but it is ſuppoſed to be previous to ſome deſigns, which each of the three powers may have in view at the approaching Diet. The fears of all people here are engaged for the ſafety of the Poliſh Sovereign, whoſe life they apprehend to be in danger, that unfortunate Prince being now in a manner a priſoner to the Emperor, whoſe guards encompaſs the unhappy King."

They write from Dantzick, that though the Magiſtrates are endeavouring to accommodate matters with the King of Pruſſia, yet they intend to make a vigorous defence, and have actually made every preparation, as if they were in expectation of an immediate ſiege.

Feb. 9. Her Majeſty was ſo well yeſterday, as to be able to receive the viſits of ſeveral ladies of diſtinction; and the young Prince continues in perfect health.

Extract of a Letter from Stockholm, Jan. 10.

"A report prevails here, that his Swediſh Majeſty is ſoon to publiſh his pretenſions to the parts of the kingdom of Norway which he claims, and to demand them in a peaceable manner of the Daniſh King, and, if he refuſes, war will inevitably be the conſequence. The provinces which the Swedes demand, we hear are theſe; the governments of Wardhuys, Drontheim, and of Aggenhuys, which, with the government of Berghen, make up the four grand diviſions of Norway."

Feb. 11. Yeſterday orders were given from the War-office for all Officers, Subalterns, and private men, abſent from regiments on duty in Great-Britain and Ireland, to join them immediately.

Feb. 13. *A letter from Warrington, dated the 9th inſt. concludes thus, "I do not know how proviſions are with you, but here every thing is ſcarce, and exceſſive dear, and trade quite dead. There are multitudes of people going out of this country to ſettle in America, where work and proviſions are believed to be plenty."*

Extract of a Letter from Warſaw, Feb. 2.

"We are in daily apprehenſions here of the whole forces belonging to the Poliſh kingdom being diſbanded, as it is impoſſible for the King or the Republic to maintain them; they are very clamorous for their pay, and threaten raiſing contributions on the countries, if they do not immediately receive it. The conſequences attending ſuch a ſtep muſt be dreadful, and it is apprehended that the three Potentates who have divided the kingdom will in ſecrecy encourage the mutinous ſpirit of the troops, as it will divide them into parties, and afford a pretence of puniſhing them for any outrages they may commit.

"The King's body guards, the corps of huſſars, and another regiment, have juſt ſet off for Cracow without orders, on what account is not publicly known."

They write from Liſbon, that a Portugueſe ſhip, with a very valuable cargoe from the Eaſt-Indies, has been taken by two Salletine frigates, and carried into Sallee; and that two men of war are ſailed from the Tagus for that port, to demand the reſtitution of them.

Feb. 16. Yeſterday arrived a mail from New-York, brought by the Mercury packet-boat, Captain Dillon.

A letter from Dublin ſays, "Orders are come over here from London, for ſome land forces to be embarked from this kingdom immediately for New England."

Extract of a Letter from Warſaw, February 2.

"Advice has been juſt received here, that a large body of Ruſſians are now on their march from Wilna, and it is ſuppoſed for this capital, but for what purpoſe is not publicly known."

Feb. 19. Yeſterday morning, between 4 and 5 o' clock, a terrible fire broke out at Mrs. Collier's and Jewſon's, milliners in Biſhopſgate Street, which intirely conſumed that, and two other houſes backwards. It is ſuppoſed there were 13 perſons in the houſe, out of whom only three have yet been found that have eſcaped: A maid ſervant and Miſs Milne jumped out of the Windows, fractured their ſculls, and died inſtantly.---Mrs. Jewſon is one that is miſſing; Mr. Jewſon, who eſcaped, remains in a ſtate of inſanity from the fright. One of the bodies was laſt night dug out without head or arms. A ſervant, the evening before, deſired the Watchman to ring the bell before he went off in the morning, but he, when he went to do it, ſeeing a light in the kitchen, concluded the family were up, and therefore went off without ringing the bell. The family had been before remarkably careful of fire, but having ſat up late, and been fatigued in preparing dreſſes for the maſquerade, omitted their uſual precaution; ſo many lives have hardly ever before been known to be loſt in this city, from a fire that did not ſpread further

Feb. 23. The following is the moſt exact account that has yet appeared of particulars at the above unhappy fire, viz. On Thurſday morning a little before ſix, a ſawyer going to work, heard a crackling like ſomething burning, which he told to a perſon paſſing by, and ſtooping down, both of them ſaw the kitchen in flames, and immediately alarmed the family. The firſt perſon who awaked was a man ſervant, up three pair of ſtairs, in whoſe room the bell hung. He ran firſt to the room door of his maſter, who anſwered him, then to that of Mr. Jewſon, and after alarming him, had juſt time to make a precipitate retreat out of the window on a beam, into the window of a publick houſe back of Mrs. Collier's: ---While on the beam, he perceived two of the young women attending him; one of them begged him to aſſiſt her in ſaving her life, which he did, but in her fright miſſing her hold, ſhe fell into the Little Court, was much bruiſed, but eſcaped with life. The other was ſuppoſed to be Miſs Smith, ſiſter and partner to Mrs. Collier, who, before ſhe could reach the window, ſunk with part of the houſe into the flames, and was ſeen no more. Mr. Jewſon, on opening his chamber door, found the flames aſcending very faſt, and calling to his wife to follow him, he groped his way into the dining room, got out of the window, and was taken down ſafe into the ſtreet, but before his wife could reach the window, the floor gave way, and ſhe, together with the unfortunate maſter and miſtreſs of the houſe, a maid ſervant, and Miſs Noble, an apprentice, ſunk into the ruins and periſhed in the flames; another maid ſervant, and Miſs Milne, flung themſelves out of a two pair of ſtairs window, and were killed on the ſpot; ſo that out of 11 perſons, who went to bed over night in perfect health, and ſeeming ſecurity, only 3 were alive at ſeven in the morning, and one of them moſt violently bruiſed. The remains of the unhappy ſufferers are placed in 2 coffins, to be interred together. The cataſtrophe was occaſioned by leaving a large fire, which was communicated to ſome clothes left on a horſe to dry.

Feb. 27. Letters from Copenhagen adviſe, that on the 2d inſt. a courier arrived there from the Daniſh Miniſter at the Court of Peterſburgh, on the opening of whoſe diſpatches orders were immediately iſſued, for four men of war and two frigates to poſſeſs the different ſtations at the Sound. The order was executed as ſpeedily as poſſible, but the reaſon was unknown when theſe letters came away.

The Pruſſian Envoy has it, we hear, in command from his Court, to enquire whether there is any real foundation for the report of a Britiſh ſquadron appearing in the Baltic next ſummer.

An anonymous correſpondent ſays, great miſunderſtanding now ſubſiſts between Lord North and one of the Secretaries of State.

March 1. *Expreſſes are come from Germany of a very ſerious nature: The King of Pruſſia is in motion, and has publicly declared his inclinations towards Hanover.*

It is ſaid that, in order to bring the Empreſs of Ruſſia to terms about Poland, Britain will ſhut her ports againſt her fleet, and leave it to ſhift for itſelf.

The Hon. Mr. Greville Montague ſucceeds Sir W. Trelawney in the government of Jamaica; Lord William Campbell ſucceeds Mr. Montague in the government of Carolina; and the Hon. Mr. Legg is appointed Governor of Halifax.

March 2. Lord North, we hear, has actually intimated his deſire of reſigning to a Great Perſonage, who has conſented to it upon the following condition: That his Lordſhip do procure a ſucceſſor, who will agree to act under his directions; the Great Perſonage having the higheſt opinion of his Lordſhip's ſkill in politics.

We learn from Gibraltar, that the Emperor of Morocco has ordered out ſeveral ſail of cruizers from Modagor and Larache, to cruize againſt the Venetians, with whom they are going to break, on account of the latter having eſpouſed the cauſe of the Ruſſians againſt the Ottoman Porte.

The King of Pruſſia is now endeavouring to conclude a treaty of commerce between the Courts of London and Berlin; but this, we are aſſured, he will never effect; our Miniſtry being too well aware of the motive that induces him to this ſtep.

All the veſſels lying in the river outward bound for the Mediterranean, are fitting as in time of war; and ſome, we hear, have applied for Letters of Marque to fight againſt the Barbary States.

The Court at St. James's has ſo far relaxed its ſeverity, with reſpect to the Dukes of Glouceſter and Cumberland, that no offence is now taken at any of the nobility or gentry, though even in the King's ſervice, who viſit them, ſo that we may ſpeedily look for a reconciliation between the brothers of the Royal Family.

Extract of a Letter from Warſaw, Feb. 20. 1773.

"His Holineſs the Pope has, we are informed, wrote letters to the Empreſs of Ruſſia, the Emperor of Germany, and to the Pruſſian Monarch, in favour of the unhappy kingdom of Poland, and its more unfortunate Sovereign, who is now in a worſe ſituation than many of his ſubjects, eſpecially thoſe who have ſubmitted to either of the three powers, they being treated with the greateſt generoſity, and are much honoured and careſſed. But there are ſtill ſome few Poles left, who ſcorn to deliver up their liberties, and are anxious to receive a call from their King, to endeavour to revenge the oppreſſion with which all Poland is now burthened."

March 4. The Earl of Bellamont was better yeſterday than the preceding day; but is relapſed again, and ſeems to be in great danger.

On Monday laſt, being St. David's day, a great number of Nobility and Gentry, natives of Wales, went to St. James's, to pay their duty to the Prince of Wales. They were informed by the Lord in waiting, that they could not be admitted to ſee his Royal Highneſs, that he had, however, as uſual, ſent them a purſe of 100 guineas for the uſe of their charity ſchool. This treatment gave very great offence.

The Principality of Wales having loſt its privilege of addreſſing the eldeſt ſon of the King as uſual, it is thought he will relinquiſh the title of P. of W. for that of Duke of Edinburgh, and Lord of the Orkneys.

Whoever it was (ſays a correſpondent) that adviſed a certain great Perſonage ſo to forget himſelf, as to ſlight the annual voluntary compliments of the ancient Britons, deſerves the barſheſt epithet language can beſtow, and the ſupreme contempt of every generous, loyal and free ſpirited ſubject, in the three kingdoms; but it is to be accounted for, ſince it does not appear that any of the Flintſhire addreſſers were among the above moſt reſpectable body, either laſt year or this.

It is ſaid that a fleet will ſoon be ordered up the Baltick, under the command of an eminent ſea commander, to give due weight to ſome late remonſtrances.

We are aſſured the augmentation of the half pay Captains, &c. which will ſhortly take place, by authority of Parliament, will be as follows, viz. 20 Captains will be added to the 101, liſt; 30 ditto to the 81. liſt, and the other poſt Captains, with the maſters and commanders, at 6s. a day each.

The 4th Battalion of the Royal Regiment of Artillery, now quartered in Chatham Barracks, commanded by Colonel Ord, are ordered to hold themſelves in readineſs to embark for America, to relieve the 1ſt Battalion of the ſaid Regiment, commanded by Lieut. Gen. Belford.

It is remarkable, that while all the powers in Europe declare their intentions to be altogether peaceable, they are all as vigorouſly exerting themſelves in military preparations, as if they were upon the very eve of a war. France and Spain are increaſing their forces, both by land and ſea. The Emperor of Germany, the Empreſs of Ruſſia, and the King of Pruſſia, have each powerful armies all ready for action. The Swedes and Danes, are aſſiduous in augmenting their forces, and putting them in the beſt order for actual ſervice; ſo are the States-General, the King of Portugal, the Republic of Venice, the Emperor of Morocco, &c. It is reported the negotiations at Bucharеſt for peace between the Turks and Ruſſians are broken off.----Be that as it will, it is certain the Turks are as diligent as they have ever been during the war, in raiſing forces and putting their army and fortifications into the beſt condition. So that from appearances, we have reaſon to apprehend the renewal of hoſtilities, and that they will be as fierce and general as ever were known.

The miniſtry carry every queſtion as they pleaſe in the Houſe of [illegible]. It is ſaid, the Eaſt-India Company cannot prevail to have the duty on tea taken off, though it is fallen in London as low as 1s. 10d. per lb. and is in danger of being utterly ſpoiled.

We can aſſure our readers from good authority, that the Bank have come to a reſolution not to refuſe taking any Portugal money, provided it be good, ſo that the circulation of that coin, which has lately been almoſt intirely ſtopped, will without doubt ſpeedily become as general as ever.

March 5. Advices from Turin ſay, there is the greateſt reaſon to believe, that agents are employed there by the Spaniſh Court, to raiſe rebellion and inſurrections in that kingdom. Since the death of his late Majeſty, no leſs than three riots have happened in Piedmont, the firſt of which was with difficulty quelled. The government is, however, taking all precautions to prevent the like in future.

By the laſt accounts from Meſſina, the plague had made its appearance at that place, and that 700 of the galley ſlaves (who were releaſed to aid in the hoſpitals) all died in one week.

March 6. At a Court of Common Council held yeſterday, preſent the Lord Mayor, the Aldermen Wilkes, Bull, Plomer, Lewes, Thomas, Oliver, Kirkman, Sawbridge, Hopkins, and Alſop, with a full Court of Commons, when the buſineſs proceeded upon was as follows:

A petition from that Court to the Houſe of Commons, ſetting forth the ſcarcity of bread corn, and the dangerous conſequences ariſing from that Houſe neglecting the proper remedies; was agreed to, and ordered to be preſented by Sheriff Lewes on Monday next.

A motion was made by Mr. Hurford, "That the Court doth concur with the Court of Aldermen, that a frequent appeal to the people, by ſhort parliaments, is the undoubted right of the ſubject, and the only means of redreſs for the various grievances under which the inhabitants of theſe kingdoms have ſo long laboured."

This motion was agreed to *nem. con.*---Another motion to the following purport, "That it be recommended to the electors of this kingdom, that previous to an election of a repreſentative in Parliament, they enjoin the Candidate that he ſhall vote for, and uſe his intereſt to procure, an Act of Parliament to ſhorten the duration of Parliament."

Upon this motion a debate enſued.---Mr. Alderman H. oppoſed the motion in a tedious ſpeech, which did not reflect much honour either on his head or heart; the whole of which was, that "ſhort Parliaments would produce much confuſion." Nothing further could be gathered from the worthy Alderman's ſpeech, although it was very long. He was anſwered in a very maſterly manner by Mr. Alderman Wilkes, who entered into the cauſes of the confuſions, which the Alderman ſo much dreaded; and proved inconteſtibly, that not only ſhort but annual Parliaments were agreeable to the rights of a free people, and the ſpirit of our conſtitution. The Aldermen Oliver, Sawbridge, and Lewes, were of the ſame opinion, and each of theſe gentlemen gave great ſatisfaction. When the queſtion was put by the Recorder, there appeared only three hands againſt it.

Then a motion was made, that a committee be appointed, conſiſting of ſix Aldermen, and twelve Common-Councilmen, to prepare a reſolution, and circular letters to the Corporations and Electors of England, for forwarding the above very important buſineſs; and carried as above.

Mr. Alderman Kirkman moved the Court, that a petition be preſented to Parliament, againſt the baneful practice of ſtate lotteries in *times of peace*. The motion was agreed to, and referred to the ſame Committee as were appointed to further annual Parliaments.

This day's buſineſs will be a laſting monument of the virtue and diſintereſtedneſs of the citizens of London: The alarm bell is now rung by the firſt corporation, and the wealthieſt body of men in England, and there is no doubt but the various *independent* corporations of this kingdom, and the county electors will join in unity with the citizens of London, in regaining their antient conſtitution, and undoubted right of annually electing their repreſentatives in Parliament.

It was laſt night rumoured about town, that Admiral Montague, and the other Commiſſioners, who went with him on the expedition to Rhode-Iſland, had been tarred and feathered, and were returned over land to Boſton in a very woeful condition.

Yeſterday bills were ſtuck up at the Royal Exchange, for volunteers to enter on board the following men of war, under the command of Admiral Spry, viz. the Ocean, Albion, Somerſet, Raiſonable, Torbay, Dublin, Boyne, and Kent,

Lord Bellamont's health continues in a fluctuating ſtate: On Thurſday the ſurgeons diſcovered where the ball was lodged in his body, which they apprehend will ſoon be extracted without any dangerous conſequences.

The Pallas, Bailey, from South-Carolina, is arrived in the Downs: She has been a miſſing ſhip, and valued at 25,000 l.

The Induſtry, Berwick, from Newcaſtle to London, was run foul of, and deſerted in the Swin laſt Friday morning; ſhe drove on ſhore on Orford Beach, but is likely to be got off. Three other brigs came on ſhore on the ſame place, and all hands periſhed, except one man. Four more foundered, and all hands loſt.

There has lately been diſcovered in the ſubterraneous ruins of Pompeia, a room with a window in it, containing four panes of glaſs, conſiderably thicker than any uſed at preſent; a proof that the invention of it is of older date than has been imagined.

Captain Palliſton, who arrived a few days ſince in the River, ſpoke with, in lat. 27, long. 43: 30, five French men of war; the largeſt of them, which mounted 80 guns, carried an Admiral's flag at the foretop-maſt-head.

The aſſiduous attention, ſays a correſpondent, which Lord Rochford has paid to ſettling the commercial differences, between the Courts of London and Liſbon, deſerves the higheſt praiſes, and the warmeſt thanks.

A Committee is ſummoned to meet at Guildhall on Monday next, in order "to draw up the form of an engagement for the electors of Great Britain to enter into, for ſhortening the duration of Parliaments." Which engagement is to be reported at the next Court of Common Council.

The Port Maria, Atkins, from Jamaica for London, loſt her rudder at ſea, and was ſo leaky, that on the 30th of January, Lat. 49, Long. 17: 30, the Captain and crew left her, and got on board the Woodbridge, Thomas, who is arrived at Dover from Virginia.

The Abſent Friend, Ferguſon, from Maryland for Liverpool, was, on the 19th of January, driven on ſhore at Longkendall, but will be got off without much damage. Eight or 9 veſſels, driven on ſhore at the ſame time and place, are all loſt.

A large veſſel, with about 500 hogſheads of tobacco on board, is loſt on Pembray Sands, near Lanelly, in Carmarthenſhire, and all the crew periſhed. No papers are yet found; but a plank, on which is the word *Pompey*, is come on ſhore from the wreck.

A ſloop, Lewis Farquhar, maſter, laden with tobacco, from Maryland for Liverpool, is aſhore near Edinburgh, but expected to be got off without much damage.

P. and Bed; two Compaſſes, one made in London, the other at New-York.

PROVIDENCE *(Rhode-Iſland) April* 3.

At the Superior Court, which ſat here laſt Week, a Cauſe was tried, wherein Meſſieurs Clark and Nightingale, Merchants, of this Place, were Plaintiffs, and Charles Dudley, Eſq; Collector of his Majeſty's Cuſtoms for the Port of Rhode-Iſland, Defendant. The Plaintiffs ſued in an Action of the Caſe, for refuſing to admit a Poſt-Entry ſundry Weſt-India Goods, imported by them in June laſt, by which Means the ſaid Goods were ſeized and forfeited. The Jury brought in a ſpecial Verdict, which was determined by the Court in Favour of the Plantiffs, Five Hundred Pounds Fourteen Shillings and Seven-pence Sterling Damages, and Coſts of Suit.---The Collector has appealed home.

NEW-YORK, April 19.

Extract of a Letter from Albany, dated April 3, 1773.

----"*I likewiſe acquaint you, that I have ſeen John Wall executed Yeſterday, for being in Connection with thoſe who counterfeited the Paper Currency of this Province; two others were hanged with him for that Fact. Wall was a hardened Villain, and I believe a great Rogue; as he hung on the Gallows, I had the Curioſity to take up his Cap, and ſaw, as I before heard, that he was cropped. Such Work as he and his Fellow-priſoners made the Day before they were executed, was never known here before; they got off their Bolts in the Night, and made their Eſcape out of Goal, but were ſoon apprehended, and their Irons renewed; the next Morning (when they were to be executed) they had them off again, barred the Room they were confined in, bid Defiance to the Sheriff and his Party, and were determined to kill any Perſon that ſhould attempt to take them out; the Militia and the whole City was obliged to be got under Arms. Wall and his two Fellows kept them off, and none dare go in. As they were to die at any Rate, Wall ſet Fire to the Goal, and expected to die ſo; but the Inhabitants ſoon brought the Engines, and extinguiſhed it. His next Contrivance was thus: He got about two Pounds of Powder from ſome malicious Fellow, put it in a Bottle, and had a Match to put to it when the Sheriff or any other Perſon dare venture in. They thus kept the City in an Uproar for ſome Time; at laſt a Party ſuddenly broke in upon them, and according to his Scheme, he fixed his Match to the Bottle, which he held in his Hand, but, through the Mercy of Providence, the Powder did not take Fire. After which they were carried to the Gallows, and executed according to their Deſert. Wall ſeemed to die a Penitent, and ſung Pſalms at the Place of Execution.*"

PHILADELPHIA, April 21.

We hear, that a Society of Gentlemen in Edinburgh, for the Advancement and Propagation of Arts and Sciences, have conferred on Mr. JOHN BARTRAM, of Pennſylvania, Botaniſt to their Majeſties, Fellow of the Royal Society, &c. &c. A curious Gold Medal, in Teſtimony of the great Reſpect they bear to the many ingenious and uſeful Diſcoveries he has favoured them with, in the Courſe of a long Correſpondence.

Captain Cooper, from Liverpool, on the 13th of March, in Lat. 50: 13, Long. 14: 50, ſpoke the Brig Expedition, belonging to New-York, from South-Carolina for Cowes, out 33 Days, all well; and on the 12th Inſtant, in Lat. 38: 47, Long. 68: 40, he ſpoke a Schooner, Capt. Buſh, from New-London for Barbados.

The Ship Carolina, Captain Loxley, is arrived in London; and the Ship Britannia, Captain Peters, at Portſmouth, from South-Carolina, both of this Port.

The Ship Roſanna, Capt. Cox, and the Snow Sterling, Capt. Thompſon, both of this Place, are arrived in London from Jamaica.

By Captain Simpſon, from Cape Fear, we learn, that on the 20th ult. two Dwelling-houſes were burnt to the Ground, and a Sloop, Captain Angel, belonging to Rhode Iſland, who was taking in Tar, was burnt to the Water's Edge, ſo that they did not ſave any Thing. The Fire was occaſioned by burning the Woods to clear the Land, the Wind at that Time blowing very hard, communicated the Flames to the Houſes.

Captain Walker, from Hiſpaniola, on the 26th ult. in Lat. 32: 30, Long. 72: 44, met with a heavy Gale of Wind, which continued three Days, in which he was very near foundering; in ſcudding, he ſhipped two heavy Seas on his Quarter, which laid him on his Beam Ends for a conſiderable Time, and ſhifted chief Part of his Cargoe, by which he loſt ſeveral Hogſheads of Melaſſes; his Boat, Hencoops, and every Thing were waſhed off the Deck, and loſt, carried away his Jibb-boom, Square-ſail Boom, and ſplit his Sails to Pieces; the People kept the Pumps going the whole Time of the Gale, and it was as much as they could do to keep the Veſſel above Water.

A Letter from Glaſgow, dated January 21, ſays, "Yeſterday Morning we had a hard Gale of Wind, when the Peggy, Crawford, from Virginia, was obliged to cut away her Main and Mizen-maſts to ſave her from going aſhore.---We juſt hear, that the Blandford, Troop, from Virginia, is put aſhore between Irwin and Ayre."

On Sunday Night, the 17th of January, in a violent Storm, at W. N. W. the Brig Induſtry, Captain Savage, from this Port for Drogheda, laden with 600 Hogſheads of Flaxſeed, Lumber, Apples, &c. was forced up Dingle-Bay, and wrecked on the Banks and Shoals at the Bottom of the Bay, near the Peninſula of Inch, already infamous for many Shipwrecks. The Captain and Cook were drowned, and the Remainder of the Crew eſcaped with the utmoſt Difficulty.

Captain Gregory, from Jamaica, on the 29th ult. in the Gulph of Florida, ſpoke the Ship Charming Nancy, Captain Tree, belonging to this Port, from Jamaica for London, out 14 Days, all well.

Captain Shewell, from Hiſpaniola, on the 6th Inſtant, in Lat. 35: 9, Long. 71: 40, ſpoke the Brig Soleſbay, Captain Robinſon, from Maryland for Cadiz, out 4 Days; the ſame Day ſpoke a Brig, from Hiſpaniola for Rhode-Iſland, out 21 Days.

Captain Shewell informs, that the French are very ſtrict at the Cape, ſearching every Veſſel that arrives from America: Juſt before he ſailed they took a Sloop belonging to New-York, laden with Flour, and a Sloop belonging to Rhode-Iſland, the Captains and Crews are confined in Goal, as well as many others: He further informs us, that a Gentleman from Rhode-Iſland was in Goal there, and had been tried, and ſentenced to forfeit his Veſſel and Cargoe, and to ſtand in the Pillory for three Hours, with a Label at his Breaſt; and that the French are determined to ſuppreſs the American Trade, as they are now ſupplied with Proviſions from Old France.

Captain Crew, from Gibraltar, on the 20th ult. in Lat. 25: 16, Long. 53: 22, ſpoke the Ship Friendſhip, Captain Carter, from Briſtol for Charleſtown, out 6 Weeks, all well; and on the 5th Inſtant, in Lat. 33: 20, Long. 69: 55, ſaw a Brig and two Sloops; he ſpoke one of the Sloops, who informed him they were from Virginia, that they had loſt one Man overboard in a Gale of Wind; but it blowing very hard, could not learn who they were, or where bound.

To be SOLD, by PUBLIC VENDUE, at DURHAM, on the Third Day of MAY next,

FORTY-FOUR TRACTS of LAND, being the lands bounded on Delaware, about 40 miles from the city of Philadelphia, well known by the name of The Durham Tract, divided into ſo many convenient farms. A furnace lately built, and the *mine-hill*, which contains a very great quantity of ore, of the beſt quality, are ſituate on one of them. Many of the others are extremely well watered, and contain great plenty of the beſt lime-ſtone; ſome of the tracts are already cleared for plantations, and one of them has a large quantity of the beſt watered meadow in the province, and, on many of them, more of the like quality may be made. The land is in general good, and well adapted to the raiſing wheat, barley, &c. which may be tranſported to Philadelphia, by water, at a very reaſonable rate. A more particular account of the quantities, qualities, and advantages of the ſeveral tracts, is as follows, viz.

No. 1. Containing 327 acres. On this lot there is a log houſe, about 60 acres of land, moſtly low, cleared, and about 10 acres of meadow may be made, the remainder has a great quantity of thriving young timber, with very good lime and ſand ſtone thereon; in general, Durham creek running through this tract into Delaware, forms a very commodious landing place and harbour for boats at the mouth, as well as a convenient ſeat for erecting mills, and in all probability will become a conſiderable place for trade and buſineſs.

No. 2. Containing 335 acres and 142 perches. This lot includes the Upper Forge and the Rattle-ſnake Hill, in which is certainly contained much iron ore; there is a conſtant ſpring at the foot of Rattle-ſnake Hill, and a good proportion of meadow may be made. Two thirds of this lot is extraordinary land for tillage, and there is a good body of young thriving timber, lime, and a ſort of free or ſand-ſtone thereon, very uſeful.

No. 3. Containing 232 acres-----Includes the ſtamping-mill, furnace and mine-hill, in which, perhaps, is the beſt iron ore hitherto diſcovered in America; about 20 acres of watered meadow may be made, and there is ſome good thriving young timber thereon.

No. 4. Containing 244 acres and 50 perches. This is the Manſion-houſe Lot, ſo called---Is capable of being made an exceeding fine farm, there are 60 acres of extraordinary good watered meadow, and more may be made; about 50 acres of arable land cleared, a good orchard, a fine ſpring and ſpring-houſe, and ſome lime-ſtone.

No. 5. Containing 102 acres and 45 perches----Is a very good piece of land, hath lime-ſtone, ſeveral good ſprings, and is well wooded.

No. 6. Containing 168 acres and 56 perches----Is a very good tract of arable land; very little ſtony or broken; ſome meadow may be made.

No. 7. Containing 147 acres and 129 perches----There are ſprings, and ſome meadow may be made on this tract.

No. 8. Containing 168 acres and 32 perches----A good piece of land, thriving young wood, ſome meadow and upland cleared, 20 acres of meadow ground may be made, and the greateſt part watered.

To COVER this Season.

THE noted ENGLISH DRAY HORSE, a jet black, 17 hands high, measures 16 inches round the knee joint, and is well proportioned otherwise; he is judged the broadest horse in the province; he is much admired for courage, shape, marks and beauty, and likewise for his strength and trueness in drawing, as perhaps there are none in the province able to exceed him; he is remarkably sure in getting colts, many of which seem likely to be nearly or quite as large as himself. The said horse was foaled in Lincolnshire, in Old England, was imported by Colonel FRANCIS, is now kept by the subscriber, in Pennsbury township, formerly called Kennet, in Chester county, between Kennet Meeting-house and the Forks of Brandywine-creek, near Benjamin Taylor's mill, where he is to cover at Twenty-five Shillings per Mare, the season, until the first of August. The subscriber therefore offers a reward of Ten Pounds, to any person that will produce as many likely able well made stockey colts, got by any one horse in the province, as were got by the said Dray Horse in three seasons covering; much more might be said in regard to his performance and goodness, but it is thought needless, as he is so well known, and his colts so much applaud him. Any person that pleases to send their mares, may depend upon their being taken good care of by ISAAC TAYLOR.

Good pasture to be had at Eighteen-pence per week. ‖ 6 *w.*
